HIGH LEVERAGE DIAGONAL CUTTING NIPPERS

7700N-175BG, 200BG

These nippers are designed for VVF and VA cables with a Fujiya record-setting sharpness. They are diagonal and feature Fujiya's own "Micro Mirror Blade" developed through polishing technology.

*Due to the blade being thin, these nippers will not cut through piano wire, spring wire, and wire cable.

HIGH-LEVERAGE MECHANISM POWER UP!

Having rivet placed closer to the cutting edges to provide more leverage.

Rivet placed further to the cutting edges requires more force when cutting.
