MICRO DIAGONAL CUTTING NIPPERS FCN-05

Comes with "micro mirror blade." The high precision process gives these nippers excellent durability. Small blades make these excellent for working in narrow spaces.

Blades part are processed by "Micro Mirror Blade", the leading edge of polishing technology developed by Fujiya, which achieve very keen blade and beautiful cut cross section.

With the introduction of cutting-edge machinery, these have an even greater machining accuracy. Even the most fine of cables are left with a clean cut.
